Manufacturing executive with 15+ years of experience leading high-mix, low-volume automotive and electronics manufacturing operations. Proven ability to combine operational leadership with digital transformation, Lean Manufacturing and Industry 4.0 initiatives. Recognized for combining manufacturing leadership with software development, delivering internal automation platforms that improve productivity, traceability and operational decision-making while building high-performing teams and strong customer relationships.

Zollner Electronic SRL | SMT Production Manager | Aug 2021 – Present

Lead high-mix, low-volume SMT manufacturing operations for global customers in Semiconductor, Industrial and Power Electronics.

- Designed and implemented internal production monitoring and traceability platforms that improve operational visibility.
- Improve manufacturing efficiency through Lean Manufacturing, process optimization and automation initiatives.
- Drive digital transformation by developing Python-, SQL- and PowerShell-based manufacturing solutions.
- Partner with engineering, quality and production teams to improve productivity and operational performance.
- Support data-driven decision-making through real-time KPI reporting and manufacturing analytics.

DRÄXLMAIER Romania | Production Improvement Specialist | Nov 2016 – Aug 2021

- Led Lean Manufacturing initiatives that optimized production processes and operational performance.
- Supported KPI improvement through process standardization and continuous improvement.
- Collaborated with production and quality teams to reduce waste and improve manufacturing efficiency.

DRÄXLMAIER Romania | Workshop Manager | Mar 2014 – Oct 2016

- Led production teams while coordinating manufacturing, quality and delivery performance.
- Improved workflow efficiency through process optimization and team development.

DRÄXLMAIER Romania | Quality Specialist / Assembly Technician | 2011 – 2014

- Ensured product quality through inspections, problem-solving and adherence to manufacturing standards.
- Developed a solid understanding of production processes, quality systems and continuous improvement methodologies.

Max Meyer Car Refinish | Technical Sales & Store Manager | 2010 – 2011

- Developed customer relationships by providing technical consulting and solution-oriented sales support.

Private Distribution Business, Owner / Sales Representative | 2008- 2010

- Built and developed long-term B2B customer relationships through consultative sales and account management.
- Negotiated commercial agreements with customers and suppliers to support business growth.
- Managed day-to-day business operations including sales, purchasing, logistics and customer support.

CORE COMPETENCIES

Manufacturing

- SMT / PCBA
- Lean Manufacturing
- Continuous Improvement
- Production Management

Digital Transformation

- Python
- SQL
- PostgreSQL
- MES
- PowerShell

Leadership

- Operations
- Business Development
- Project Management
- Leadership

KEY PROJECTS

Production Monitoring Platform

Python | SQL | PyQt
Developed an internal manufacturing application providing real-time production monitoring, KPI reporting and traceability.

MES Integration

Integrated manufacturing software with MES systems to automate production data collection and reporting.

Internal Digital Transformation Initiatives

Designed and implemented internal software solutions to automate manual processes, improve production visibility and support data-driven decision-making across manufacturing operations.

EDUCATION

Technical University of Cluj-Napoca

B.Sc. Automation & Applied Informatics (In Progress)

Vasile Goldiș University

Marketing Studies (2017–2020)

Traian Vuia Technical High School

Maintenance & Repair Technician

LANGUAGES

- Romanian — Native
- Hungarian — Native
- English — Professional Working Proficiency (B2)
- German — Intermediate (B1)
